## “Ryze” 2017

In 2017 Nikki plans to release her second album “Ryze”; a musical manifestation of her ability to rise above obstacles.

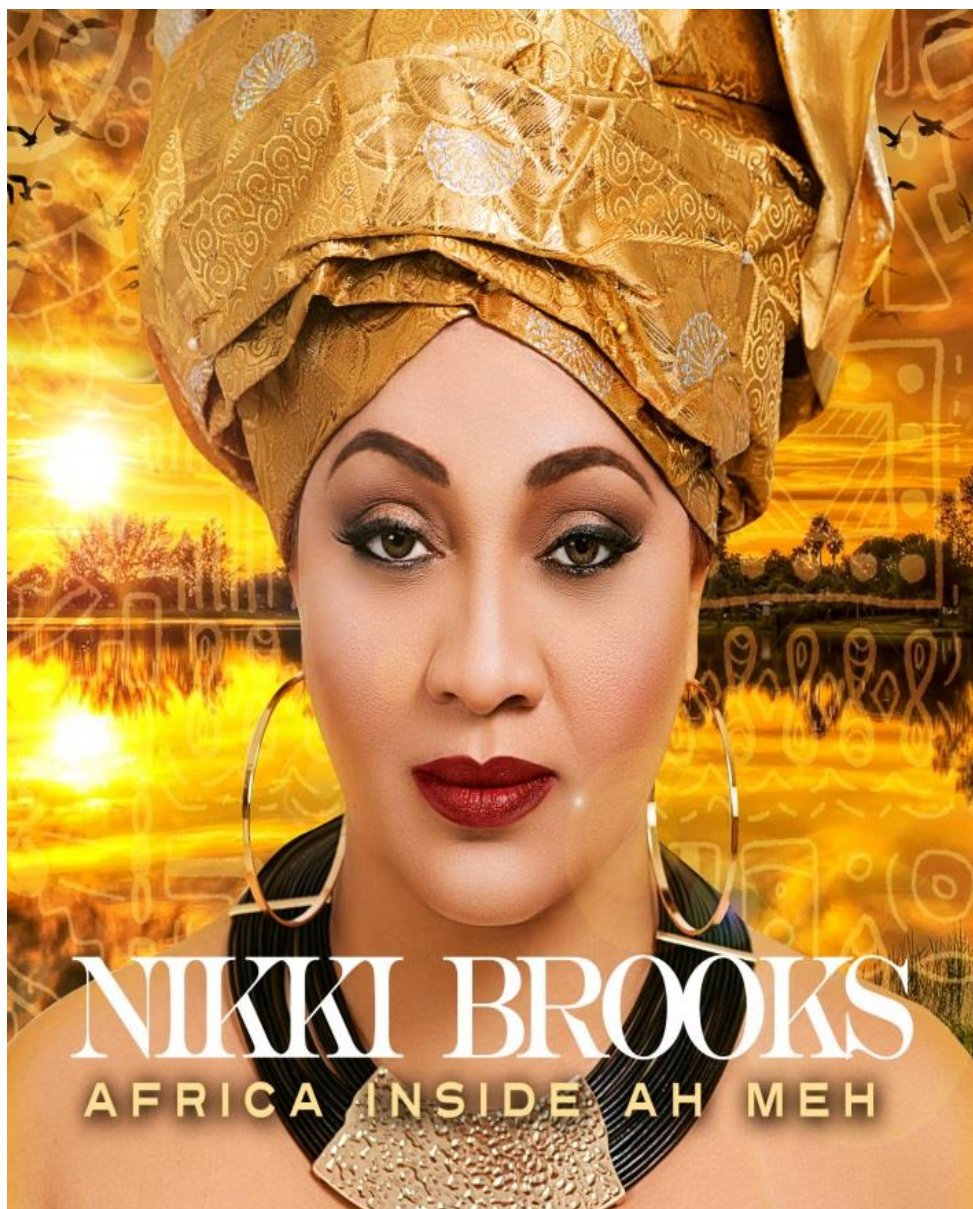

For her newest album, Nikki entrusted the help of Trinidadian producer Dnyce ; real name David Pereira, who’s Caribbean and International sound blends several genres into a creative melting pot that perfectly complements Nikki’s unique sound and musical vision.

His work on the project has been a great asset in creating mesmerizing pop melodies with savoury Caribbean roots.

The album is carded for an official release on March 10<sup>th</sup> 2017 and boasts tracks such as “Africa Inside ah Meh”

and “O Nah Nah”; music that she believes captures the Caribbean identity.

She highly anticipates the release of the album and looks forward to sharing and performing her music all over the world in 2017.
